

Position Description: Graduate Mechanical Engineer**Location: Fort Wayne, Indiana**

Full-time position

At Design Collaborative, our mission is to improve people's worlds—in everything we do. That includes not only our clients, but our employees. We want our employees to push boundaries, be creative thinkers, and challenge assumptions so we can better meet the needs of our clients and grow our portfolio. We believe our work makes a difference in our clients' lives, and we pride ourselves in our ability to collaborate and involve them in the process of design.

Key Responsibilities

- Provide design and drawing preparation related to the commercial and institutional building construction industry under the guidance of professional engineers
 - Related to design of heating ventilation; air conditioning systems; plumbing systems
- Involvement in field surveys of existing systems, cost estimates, and review and monitoring of installation and construction of above mentioned systems
- Participate in client and project team meetings
- Comply with company policies

Qualifications

- BSME graduate in mechanical engineering or BSArchE
- Registered as or pursuing an Engineer in Training (E.I.T.)
- Familiarity with AutoCAD, Revit, and/or Trane Trace a plus
- Ability to meet deadlines and prioritize multiple projects
- No experience needed

Other Skills Preferred

- Exercises sound time management and organizational skills
- Demonstrates strong written and verbal communication
- Ensures an attention to detail when handling projects
- Ability to prioritize time and multitask
